Offer for industry

CREAMS, SPREADS

DESSERT SPREADS

- Bello spread with chocolate, hazelnuts and honey
- Bello hazelnut spread
- BELLO DARK cocoa-hazelnut spread
- Vero hazelnut flavoured cocoa spread
- Vero mint flavoured cocoa spread
- Vero coconut flavoured spread
- Vero white milky spread
- Vero toffee flavoured spread
- Vero coconut white spread
- Vero advocaat flavoured spread

SPREADS WITH RICE CRISPS

- Crocanto hazelnut flavoured spread with rice crisps
- Crocanto white milky spread with rice crisps

Our spreads can be used for:

- stuffing, layering up cakes and pastries
- as a base for fillings/stuffings, ganaches, toppings/icings
- variegating icings, creams, ice creams
- when aerated with 20-30 % of margarine, e.g. for layering up waffles

They are resistant to cooling and freezing - the consistency returns to its original state

BAKE STABLES

- chocolate flavoured cream
- hazelnut flavoured cream
- white chocolate flavoured cream
- toffee flavoured cream

UNI (Medium hard)

They are used as creams for:

- baking in confectionery
- aeration, for example, for waffles and sandwich, biscuits
- direct (at the right temperature) filling of cookies, biscuits etc.
- withstand severe weather conditions without refrigeration. Produced from natural raw materials, without the addition of artificial colours and flavours, without addition of preservatives, without the addition of trans fats

UNI PREMIO (Soft)

They are used as creams for:

- baking in any confectionery, bakery

and catering products

- direct use in confectionery, creams and ice cream

Creams are suitable for dosing in traditional and automatic dispensers. Produced from natural raw materials, without addition of artificial colours and flavours, without addition of preservatives, without the addition of trans fats

ICINGS, COATINGS, GLAZES

SOFT, SHINY COATINGS

- Coverro Black
- Coverro White

HARD COATINGS (for decoration)

- Duro dark coating
- Duro milk chocolate flavoured coating
- Duro white coating
- Duro toffee flavoured coating

Coverro is a line of soft, shiny, congealing coatings. They are easy to cut even after cooling or freezing. Congealed with an effect of gloss on the products. Produced from natural raw materials, without the addition of artificial colours and flavours, without addition of preservatives, without the addition of trans fats

Duro is a line of decorative surrogates with a gloss. Duro coatings in the form of mini drops are ready for use directly as a decoration, as an additive to cakes for baking and after dissolving in a water bath or in microwave. They do not require tempering. Their stability allows you to make confectionery decorations, subtiles, etc. easily.

PASTES

PASTES for pastries and ice-cream

- Paradiso hazelnut paste 100%
- Paradiso pistacchio paste 100%

HAZELNUT PASTE

This is a 100 % low roasted hazelnut paste without any additives. The paste contains no thickening, filling, thinning, flavouring, aromatic or preserving additives. Its intense flavour and colour it owes only thanks to:

- highly selected raw material (hazelnut from properly selected plantations)

- a unique method of roasting, grinding and grinding the hazelnut

Application:

- ice cream industry
- confectionery / pastry industry
- gastro industry

PISTACHIO PASTE

100% low roasted pistachio paste without any additives. The paste contains no thickening, filling, thinning, flavouring, aromatic, colouring or preserving additives. Intense flavour and colour it owes only thanks to:

- highly selected raw material (pistachios from properly selected plantations)
- unique method of roasting and grinding the pistachio nut

Application:

- ice cream industry
- confectionery / pastry industry
- gastro industry

FUNCTIONAL ADDITIVES

- GELO-FRUIT – thickener for juices and fruits

Gelo-fruit is a thickening agent for juices, fruits, fillings for pastry, gastronomy or ice-creams (mix of selected top quality starches: cold fixing, heat-stable and freeze-resistant).

Using Gelo-Fruit you can, e.g.:

- Produce, all year round, cakes using frozen fruits which will look like fresh ones after baking (ready-made recipes for such cakes are prepared)

- Prepare fruits in the gel (cold or hot)
 - all recipes available
- Use fruit juices
- Prepare stuffings and sauces
- Thicken too moist masses, creams and juices

Product characteristics and its strengths:

Thanks to properly selected starches and lack of sugar, Gelo-fruit thickener has a very universal application (also in gastronomy).

Through proper production process Gelo-fruit has the right looseness for proper mixing in the products.

The high quality of the components used, results in the thermal and storage stability of manufactured products.

FATS

COCONUT FATS

- Coconut fat refined
- Coconut oil BIO (cold pressed)

SPECIALIZED FATS

- butter flavoured fat for confectionery and bakery industry – emphasizing colour, taste, aroma and freshness

NATURAL HONEY

We sell it to national and international retail chains and on foreign markets. We offer several types of honey.

For bakery, pastry and confectionery industry, we offer polyfloral honey.

Under client’s request we can also supply them with other types of honey.

We sell honey for industry in plastic buckets, jars or drums.

Offer for industry

CD S.A. was established in 1989. We are an experienced honey packer and producer of various confectionary products. BRC and IFS systems introduced in our production process, guarantee the highest quality and safety possible. The dynamic development of private label products in both Poland and Europe, combined with the strategy of retailers in this product segment, result in making private label product range an obligatory part of our portfolio.

Our production capabilities consist of:

- Wide range of honeys in Private Label configuration
- Recipe development and packaging of:
- Spreads with various tastes
- Spreads with hazelnuts
- White spreads
- Confectionary fillings
- Confectionery coatings / toppings
- Spreads developed based on client's needs and recipe
- Hazelnut paste

We also offer contract packing according to client's needs. We are able to pack in:

- Glass jars
- PET packaging
- Dispensers
- Tubes of different sizes
- Single use disposable packaging
- Larger packaging for industrial use
